

## **Future plans:**

Immediate Plans:

- To organize National/State level Workshop.
- To arrange a series of Lectures for the career guidance to the students. Which helps students to choose their career after graduation?

In next 5 Years:

- To develop on line library system.
- To establish separate laboratory for students to perform digital electronics practical.

In next 10 Years:

- To arrange campus interview under the training and placement cell.
- To Establish Separate Android application development Lab.

## **Strengths, Weaknesses, Opportunities and Challenges (SWOC) of the Department:**

### **Strengths**

- Well qualified/experienced teaching faculty.
- Laboratory with State of the Art equipment and modern software tools.
- Effective use of ICT in teaching learning process.
- Student placements
- Active participation of students in NSS unit of College.
- Active participation of teachers and students in seminars, workshops and conferences.
- Safe and Secured environment for girl students.

### **Weaknesses**

- Student lack of communication in English.
- Moderate placement ratio.

### **Opportunities**

- To arrange National level Workshops/Conferences.
- To arrange specialized training programs for students.
- To increase placement ratio.

### **Challenges**

- To encourage students for Entrepreneurship and set own business.
- To encourage students in learning industry compliant technical skills.
- To improve communication skill of students having non-English background.
- To commence Post Graduate program.
