REPORT

On 10/06/2021, IQAC and Training & Placement Cell in collaboration with Dhanore Eduskills Pvt. Ltd. organized a one day workshop on 'Continuous Internal Evaluation & Digital Teaching Aids and Methods. Dr. Dadasaheb Salunke, Coordinator IQAC explained the purpose of the workshop while Dr. Sunil Dahale, Coordinator, TPC welcomed the resource persons.

In the first session, Mr. Sumit Dhanore, Director, Dhanore Eduskills Pvt. Ltd. and Corporate Trainer, Tata Consultancy Services spoke on the topic 'Digital Teaching Aids and Methods'. He elaborated the pros and cons in the traditional teaching methods and concluded that no method is perfect and we have to be holistic in matter of its selection. He said that Google Classroom is a very hassle free and reliable platform for teaching learning. We can create classroom and share data that could be utilized by the users as per their convenience. It is possible for the teachers to incorporate videos, audios, images and text files. Its feedback system is also powerful and easy to operate.

In the second session, Mr. Rushikesh Bhagwatkar, Corporate Trainer, Tata Consultancy Services, dealt with the topic 'Continuous Internal Evaluation' (CIE). He said he was happy to know that Vinayakrao Patil Mahavidyalaya, follows a rigorous CIE system in order to assess and evaluate the students throughout the year. He illustrated the process of giving assignments to students through the Google Form. He said that people had the misconceptions that Google Form is not suitable for conducting subjective evaluation. He justified that we can carry out subjective or descriptive testing as well. He said that Group Discussion is a very powerful testing method followed in corporate world. So you can follow that in your college right from the first year. He recommended that the number of students in a GD should be six or eight. Many times students feel that when they speak more they are likely to get more credit. GD tests skills like listening, caring for others, tolerance, respect, gentle intervention etc.
