Staff Academy

Organised Dr. B.R. Dhapase's session on a topic "Sahitya Ki Upyogita".

on 29th June, 2017

Report

Staff Academy organised a lecture of Dr. B.R.Dhapase on a topic "Sahitya ki Upyogita" on Tuesday 29th June, 2017. In the beginning of his session he and the Faculty members were welcomed by Mr. S. K. Rathod. He also gave a brief introduction of the Dr. Dhapase. In the beginning of his discourse Dr. Dhapase pointed out that History is not only a gateway to the past, it's also suggestive of our present and the future. Within every time period lies different people and within them, different stages in our ever-growing culture. Each individual before was a product of their own time. As a species we evolve every day and without that timestamp that literature gives us, we would know nothing about the past.

Literature allows a person to step back in time and learn about life on Earth from the ones who walked before us. We can gather a better understanding of culture and have a greater appreciation of them. We learn through the ways history is recorded, in the forms of manuscripts and through speech itself.

In periods from ancient Egypt, we can gather their history through hieroglyphics and paintings. The symbols Egyptians left behind are what we now use to understand their culture. This is different to Greek and Roman culture, which is found with greater ease, because of their innate desire for accuracy in their writing.

This is the power that words have. They have the ability to spark a meaning, reform a nation and create movements while being completely eternal. Inevitably, they will outlive their speaker.

He also pointed out the impact of literature in modern society is undeniable. Literature acts as a form of expression for each individual author. Some books mirror society and allow us to better understand the world we live in.

He gave example of American author, F.Scott Fitzgerald whose novel is prime example of this as his novel The Great Gatsby was a reflection of his experiences and opinions of America during the 1920s.

We are easily connected to the psyche of authors through their stories. However, literature also reiterates the need to understand modern day issues like human conflict.

A Gulf News article says, "In an era of modern media, such as television and movies, people are misled into thinking that every question or problem has its quick corrections or solutions. However, literature confirms the real complexity of human conflict".

Literature is a reflection of humanity and a way for us to understand each other. By listening to the voice of another person we can begin to figure out how that individual thinks. He also pointed out that literature is important because of its purpose and in a society, which is becoming increasingly detached from human interaction, novels create a conversation.

At the end of his lecture reiterated the need of reading books because they are the reflections of the society of which we are unaware.

Lastly Mr. s. K Rathod proposed vote of thanks. The programme was well attended by students and faculty members.
