

Program Specific Outcomes (PSO's)

PSO 1	Impart a strong foundation in Life Science by understanding the basic concepts and practical applicability of every branch in Biotechnology.
PSO 2	Enable students to become competitive in procedures as per laboratory standards in the areas of Microbiology, Biochemistry, Bioinformatics, Genetic engineering ,Tissues culturing, Fermentation technology ,Ecology and Evolution which is useful in industrial and research field.
PSO 3	Provide a solid foundation for the students to pursue professional careers and take up higher learning courses.
PSO 4	To provide a systematic and rigorous learning and exposure to Research areas.
PSO 5	To understand the applications of Life Sciences in Medicines, Apiculture, Aquaculture and Agriculture.
