Study Tour Report

- The Department of Biotechnology, Vinayakrao Patil Mahavidyalaya, Vaijapur, organized a one day study tour at Indian Institute of Science Education & Research of Pune, Maharashtra on 19th December 2018.

Objectives

- To provide research knowledge.
- To acquaint students with the various process in the research work.
- To help students combine theoretical and research knowledge.
- To imbibe in students the research skills and encourage them for tomorrows sceince begin.
- To facilitate interaction with research experts.

05 teachers led 28 students from Biotechnology. This activity gave students first-hand and various stages of research activities on 19th December 2018.

Firstly our team was led by Ms. Poornima of G1 building at IISER. She introduce us to the UG labs and gave information about various advance instruments.

In second session, Mr.Bose narrated on “ THE IISER TALK”. He guided about how to get applied for masters and doctoral programmes of IISER. He also added information and importance of different entrance exams and research areas related to biotechnology.

See and know is better than ‘read & learn’. It was a great learning experience. The students went round the different research buildings and tried to know the advance processes and technologies used at IISER. They also found that each and every process is important for the best quality research. The IISER followed with advance research technologies for future development.

During this visit our students noted the important lessons learned there. We fill very much satisfied by acquiring information of various research labs.
