National Cadet Corps
Hand Hygiene Awareness Program for School Students.
08 December 2018
REPORT

National Cadet Corps organized 'Hand Hygiene Awareness Programme' for school students on 08 December 2018 at Sushilabai Kadam High School, Vaijapur. The aim of this program was to sensitize the school students about hand hygiene.

Prior to the programme, the cadets were asked to assemble on the playground at 10.30 am. The NCC CTO, Mr. Shrikant Dokhe, gave a brief introduction about the program. He explained the importance of hand hygiene in our day to day life. He also narrated that the hand hygiene is the most important measure to avoid the transmission of harmful germs and prevent health care-associated infections. He also explained how and when to practice hand hygiene. He pointed out that many diseases spread due to dirty hands and we can easily control them by washing hands.

In the second part of the program NCC cadets gave demonstration of proper hand washing with soap and water. They explained to the students that there are many myths regarding hand washing. Sometimes people think that only hand wash is required for washing hands thoroughly, however, it is not so. We can wash hands with soap too. People also think that only expensive soap is required in order to wash hands properly. The cadets explained that we can wash hands with any toilet soap because by and large they have the same content.

They also informed the students that they should wash hands before and after the meals and after the toilet. This activity brought about awareness about hand hygiene among school students. The school students also get acquainted about hand hygiene methods. Later the NCC CTO Shrikant Dokhe proposed vote of thanks.
