**REPORT**

National Service Scheme (NSS) organized a 'Workshop on Cashless Maharashtra' on 12 December 2017. The aim of the workshop was to sensitize students about the cashless transactions. Dr. Sandeep Gaikwad, Head, Department of Commerce, Muktananda Mahavidyalaya, Gangapur, was invited as a resource person. Mr. S. A. Dokhe, NSS Programme Officer, welcomed the participants and the resource persons. He offered a bouquet to the resource person and introduced him as well. He said that cashless system is the need of the hour but as it requires use of technology the users have a sort of apprehension and so the workshop would definitely help us understand the prospects.

In the first session, Dr. Sandeep Gaikwad, narrated the history of online transactions in the west and its arrival in the Eastern countries. He said that the banking in India operated manually till the first decade of the 21<sup>st</sup> century. So its pace of operation was rather slow and had many operational difficulties. As the computers and internet services had its diffusion in the rural areas, the online banking got fillip. He said that the Prime Minister of India, Shri. Narendra Modi, announced the decision of demonetization on 8 November 2016 in order to bring discipline and fairplay in the economy and so cashless transaction got momentum. He referred to NEFT and RTGS systems with examples. He also explained in detail E-Wallets and UPI. He said that the use of UPI is considered to be a safe and secure method of payment because it is difficult for hackers to crack the system. He also said that user id and pass words must be maintained securely.

In the second session, Dr. C. V. Sirsat, Principal, elaborated on the importance of cashless transactions in the current scenario. He said that the use of plastic currency is the need of the hour. In the past many scams happened because there was difficulty in regulating such illegal transactions. Hoarding of disproportionate currency was a big problem. Now there is a monitoring mechanism and it is not possible to carry out fraud transactions. Such transactions ruins the economy and brings in economic disparity. It also leads to tax evasion. So cashless system is a boon to economy. Mr. S. A. Dokhe proposed the vote of thanks.
