**Lecture on 'Water Conservation and Water Management' by Dr. T. R. Patil (26-12-2017)**

**REPORT**

It was a matter of joy and pride for the NSS units of Vinayakrao Patil Mahavidyalaya, Vaijapur because Dr. T. R. Patil, NSS Coordinator, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, accepted the invitation as a guest and resource person for the NSS Camp. Anita Nivrutti Shinde, B.Com. III, introduced the resource person saying that Dr. T. R. Patil hails from a remote village and has got a first-hand understanding of the societal problems. Dr. T. R. Patil said that water has been a very sensitive issue in India and across the world. Water is the basic human need. We cannot imagine life without water. It is also called as the 'elixir of life'. Life sustains because of water. We exist because of water, but at the same time we must bear in mind that we may cease to exist in absence of water and this particular statement has got many implications. We have to be very sensitive about this vital natural resource.

Today we see that in Vaijapur Tehsil water crisis is a major concern. We have some 125 villages which suffer from this water crisis. The fact that we receive a moderate rains of about 550 mm is often neglected. We have to admit sadly that we fail to tap the water in monsoon and we buy water in winter and summer. And this happens repeatedly. He said that he has visited almost all the big villages of Vaijapur during last 20 years and has come to the conclusion that with 550 mm rain. In order to tide over the situation, we have to tap each drop and let it percolate in our farm. Right now the water flows to the Godavari river. We can store it in lakes, reservoirs, wells, bunds and other low lying areas. If each and every farmer arrests the flowing water, the water level will go up and we'll have abundant of water. Dr. Patil also said that we can manage water resources systematically. We can use this water firstly to meet the drinking water need. Sadly we have to depend on canals. We can use the water for horticulture because the soil in Vaijapur is excellent for growing fruits. He called upon the volunteers to implement the water conservation and water management strategies. Prasad Rameshwar Gaikwad, B. Com. III, proposed the vote of thanks. Sopan Vilas Jadhav, B. Sc. II, conducted the proceeding.

**Hon'ble Late. Vinayakrao Patil (Aanna)**

Founder President
