Vinayakrao Patil Mahavidyalaya, Vaijapur
Dr. Babasaheb Ambedkar Marathwada University, Aurangabad
FOUNDATION DAY 23-08-2018
Lecture by Dr. Sachin Pagare on 'Importance of Value Education Today'
REPORT

Vinayakrao Patil Mahavidyalaya, Vaijapur, celebrated the University Foundation Day on 23 August 2018 with pomp and reverence. To mark the event, a grand ceremony was held at the Administrative Building. Principal Dr. U. V. Panchal hoisted the University Flag at 07:30 am and teachers and students sang the University song that celebrates the glorious knowledge tradition of the Marathwada Region. After the song, Dr. U. V. Panchal, gave best wishes to the teachers and students on the eve of the university foundation day.

Dr. Sachin Pagare, Sports Director, delivered a lecture on 'Importance of Value Education Today'. He said that the need for inclusion of moral values and principles has been deeply felt today by the educationists and policy makers. There is a paradigm shift clearly visible in the education policy of our country. We know it very well that the Indian higher education has always given adequate scope to moral education in the past, but especially after the globalization that reshaped the world after 1990, we have to revisit this tradition from a fresh perspective.

Indian higher education has been facing some pressing concerns in the advent of globalization. Technical education has gained prominence. Today we see that people feel that education aims at job creation. However, this is a limited view. By getting higher education we will definitely get employment, but it is high time to think whether we acquire the moral and spiritual values: love, affection, compassion, sympathy, empathy, loyalty, non-violence, peace, tranquility, co-living etc. Education must address these issues through integration. A conscious teacher and a devoted student will always cultivate a quest for continuous learning, excellence, national development and be a worthy citizen of the country.

In his presidential address, Dr. U. V. Panchal commented that value education is implicit in the curricula of all programmes and it is our responsibility to integrate and highlight them adequately. He said that the institute has several associations, cells and committees in order to organize co-curricular and extra-curricular activities realizing the moral and spiritual values. Dr. Dadasaheb Salunke proposed the vote of thanks.
